

Welcome Outside

WORKBOOK FW 2025-26

Auf der Hochebene von Tesino,
am Fuss der Dolomiten, eingebettet
zwischen der Lagorai Bergkette,
produzieren wir **seit 1975** eine breite
Produktpalette von Arbeitsstiefeln
und Warmfutterstiefeln für
den Freizeitbereich.
Durch langjährige Erfahrung und
Passion bieten wir qualitative
Produkte mit Tragekomfort im
italienischen Stil an.

Nell'altopiano del Tesino, ai piedi
delle Dolomiti, incastonato nella
catena montuosa del Lagorai, **dal 1975**
produciamo un'ampia gamma di stivali
da lavoro e canadesi per lo sport.
Lavoriamo con esperienza e passione
per offrirti prestazioni e comfort con
qualità e stile italiano.

**ON THE TESINO PLATEAU,
AT THE FOOTHILLS OF THE
DOLOMITES, NESTLED IN THE
LAGORAI MOUNTAINS, **SINCE**
1975 WE PROVIDES A WIDE
RANGE OF WORK BOOTS
AND CANADIAN SPORT
BOOTS. WE WORK WITH
EXPERIENCE AND **PASSION**
TO OFFER PERFORMANCE
AND COMFORT WITH ITALIAN
QUALITY AND STYLE.**

Spirale was established in **1975** as a result of the will and initiative of its founder and still continues its policy of combining **“Made in Italy” quality and style** with technological innovation, making it a leading company in the footwear sector worldwide. Spirale specialises in the production of footwear and boots injected with thermoplastic materials, PVC, thermoplastic and nitrile rubbers for both leisure wear (rain boots and canadian boots) and professional use related to safety in the workplace.

Over the years, thanks also to important acquisitions, the company has grown steadily, increasing its production both in terms of product range and total volume of pairs. Spirale group has always been able to combine technologically advanced solutions with stylishly fashionable shapes and colours, without forgetting a careful and constant analysis of developments in terms of ecology and environmental protection. From the outset **Spirale has opted for eco-sustainable solutions** in the industrialisation of its products, constantly investing in testing and research into the use of **new ecological and recyclable materials**. Also in the work and safety sector, the materials and the use of exclusive patents make the boots for professional use unique and appreciated on the national and international market.

Spirale wurde **1975** aus dem Willen und der Initiative seines Gründers heraus gegründet und setzt bis heute seine Politik fort, **Qualität und Stil “Made in Italy”** mit technologischer Innovation zu verbinden, zu einem weltweit führenden Unternehmen der Schuhbranche. Spirale ist spezialisiert auf die Herstellung von Schuhen und Stiefeln Schuhen und Stiefeln aus thermoplastischen Materialien, PVC, Thermoplast- und Nitrilkautschuk sowohl für die Freizeit (Regenstiefel und kanadische Stiefel) als auch für den professionellen Gebrauch im Zusammenhang mit der Sicherheit am Arbeitsplatz.

Im Laufe der Jahre ist das Unternehmen, auch dank bedeutender Übernahmen, stetig gewachsen und hat seine Produktion sowohl in Bezug auf die Produktpalette als auch auf die Gesamtmenge der Paare. Die Spirale-Gruppe hat es immer verstanden technologisch fortschrittliche Lösungen mit modischen Formen und Farben zu kombinieren, ohne dabei zu vergessen eine sorgfältige und ständige Analyse der Entwicklungen in Bezug auf Ökologie und Umweltschutz. Von **Spirale hat sich von Anfang an für umweltverträgliche Lösungen** bei der Industrialisierung ihrer Produkte entschieden und investiert ständig in die Erprobung und Erforschung **neuer ökologischer und recycelbarer Materialien**. Auch im Bereich Arbeit und Sicherheitsbereich machen die Materialien und die Verwendung exklusiver Patente die Stiefel für den professionellen Einsatz einzigartig und auf dem nationalen und internationalen Markt geschätzt.

Nata nel 1975 dalla volontà e intraprendenza del suo fondatore Franco Badio, prosegue ancor oggi nella sua politica di fondere **la qualità e lo stile del “Made in Italy”** con l’innovazione tecnologica che ne fanno un’azienda leader nel settore calzaturiero a livello mondiale. Spirale è un’azienda specializzata nella produzione di calzature e stivali iniettati in materiali termoplastici, PVC, gomme termoplastiche e nitriliche sia per il tempo libero (stivali da pioggia e canadesi) sia per l’uso professionale legato alla sicurezza negli ambienti di lavoro.

Negli anni, anche grazie ad importanti acquisizioni, è costantemente cresciuta aumentando le produzioni sia come gamma di prodotti sia come volume totale di paia. Spirale group da sempre è in grado di coniugare soluzioni tecnologicamente avanzate a forme e colori stilisticamente alla moda, senza dimenticare un’attenta e costante analisi delle evoluzioni in tema di ecologia e di salvaguardia dell’ambiente. **Spirale fin dalla sua nascita ha optato per soluzioni eco-sostenibili** nell’industrializzazione dei propri prodotti, investendo costantemente in test e ricerche per l’utilizzo di **nuovi materiali ecologici e riciclabili**. Anche nel settore del lavoro e della sicurezza, i materiali e l’utilizzo di brevetti esclusivi rendono gli stivali ad uso professionale unici ed apprezzati sul mercato nazionale ed internazionale.

**WITH BAREBOO, CHILDREN'S BAREFOOT
FOOTWEAR IS BORN, COMBINING
PROTECTION AND COMFORT. WE
AIM TO PROMOTE NATURAL AND
UNRESTRICTED MOVEMENT, ALLOWING
LITTLE ONES TO EXPLORE THE WORLD
IN TOTAL FREEDOM, WITH FLEXIBLE AND
SECURE SUPPORT AT EVERY STEP.**

MIT BAREBOO IST EIN BARFUSSSCHUH FÜR KINDER ENTSTANDEN, DER
SCHUTZ UND KOMFORT VEREINT. UNSER ZIEL IST ES, DIE NATÜRLICHE
UND UNEINGESCHRÄNKTE BEWEGUNG ZU FÖRDERN, DAMIT DIE
KLEINEN DIE WELT IN VÖLLIGER FREIHEIT ERKUNDEN KÖNNEN,
MIT FLEXIBLEM UND SICHEREM HALT BEI JEDEM SCHRITT.

CON BAREBOO NASCONO LE CALZATURE PER BAMBINI A PIEDI NUDI,
CHE COMBINANO PROTEZIONE E COMFORT. IL NOSTRO OBIETTIVO
È QUELLO DI PROMUOVERE UN MOVIMENTO NATURALE E LIBERO,
PERMETTENDO AI PIÙ PICCOLI DI ESPLORARE IL MONDO IN TOTALE
LIBERTÀ, CON UN SUPPORTO FLESSIBILE E SICURO A OGNI PASSO.

f r e e d o m t o m o v e

Why barefoot?

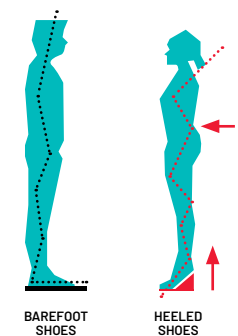

Because technology is in our feet.

BAREFOOT PRINCIPLES

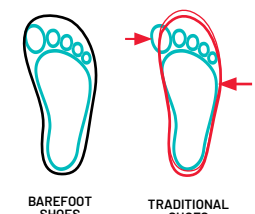

DROP ZERO - ZERO HEEL FOR A NATURAL STANCE

Raising the heel in shoes can damage tendons and increase foot pronation. Insoles and heels only relieve pain without addressing the underlying problem. **Barefoot shoes, with zero drop and thin soles, support the natural movement of the foot.**

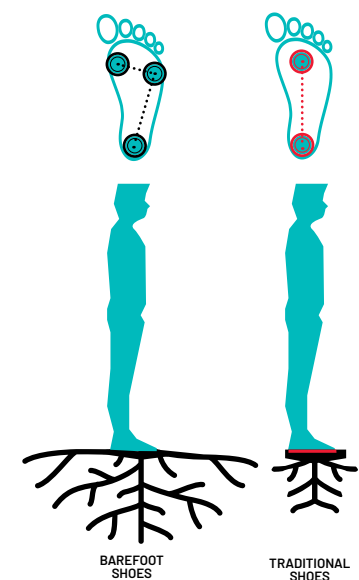

WIDE LAST - WITH EXTRA ROOM FOR THE TOES

Wide and straight-shaped shoes allow the toes to move freely, **promoting correct body movement.** Bending the big toe inward can cause bunions (valgus) and lead to imbalances in other joints.

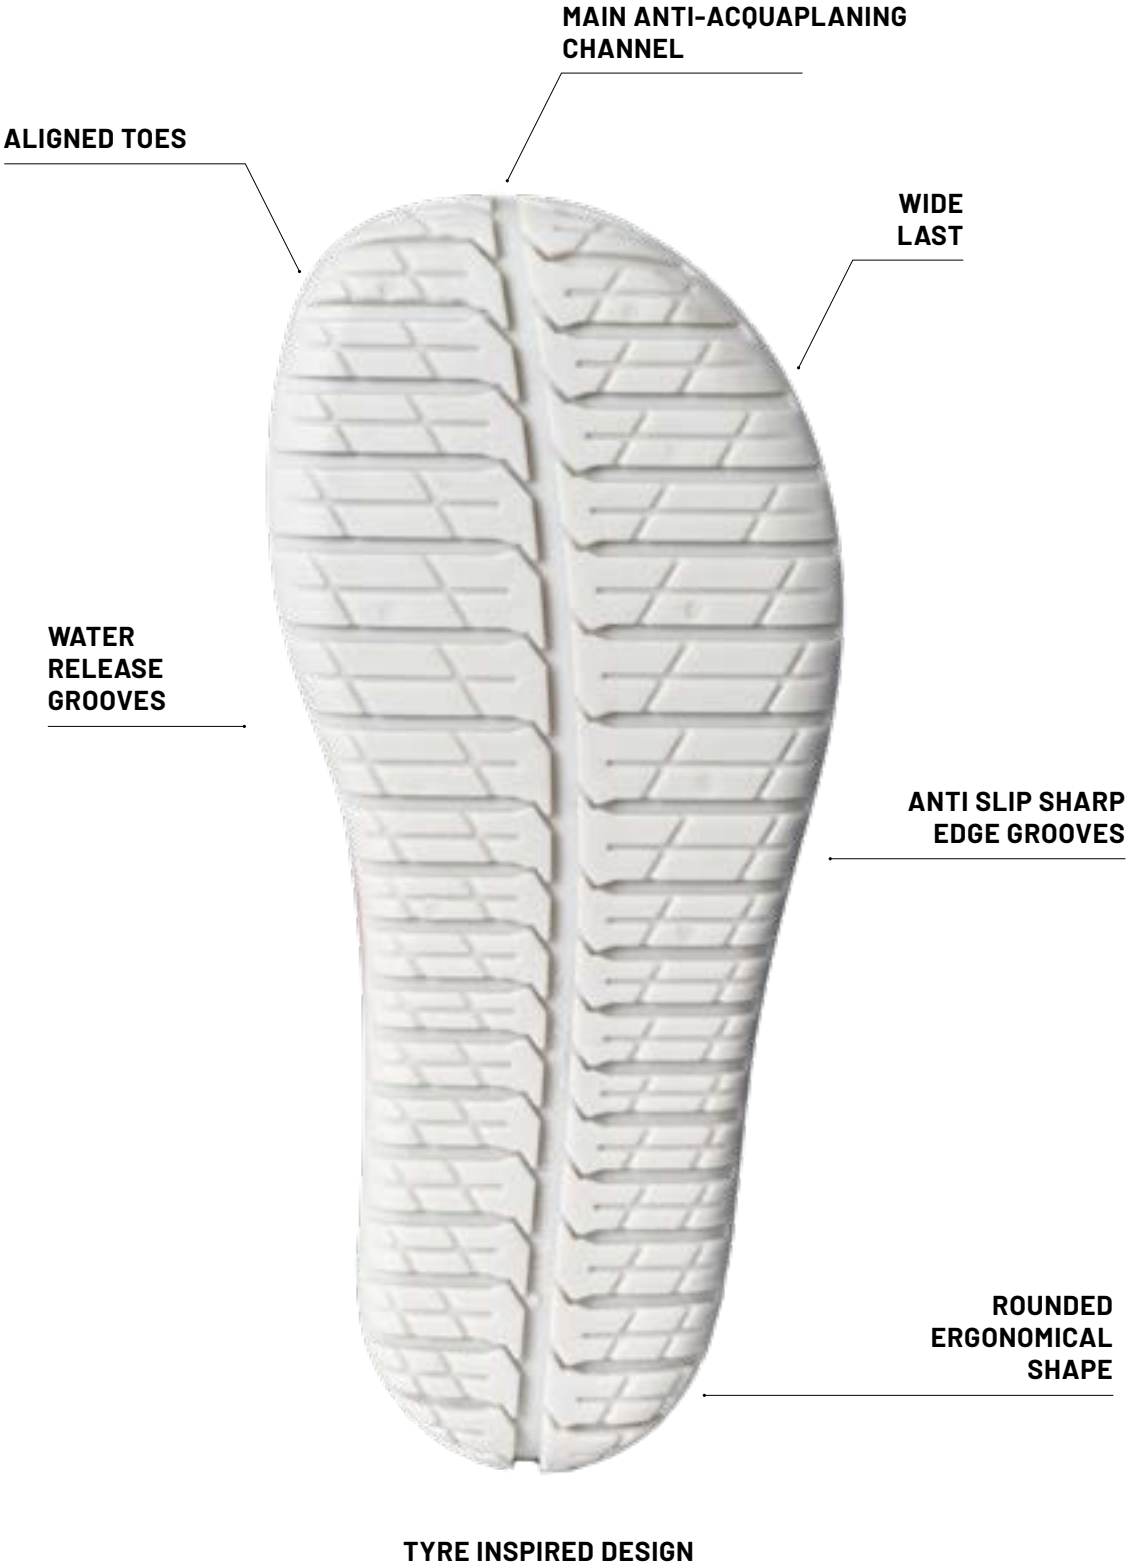

FLEXIBLE SOLE - FOR FREE MOVEMENT

Flexible and minimal soles in barefoot shoes allow the feet to **feel the ground and activate sensors that communicate with the brain,** enhancing stability, circulation, and temperature regulation. Feet, rich in sensors, are essential for perceiving and adapting to the environment.
